ATICO MINING CORPORATION**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

(Expressed in United States Dollars)

For the three and nine months ended September 30, 2025 and 2024

1. NATURE OF OPERATIONS AND GOING CONCERN

Atico Mining Corporation (the "Company") was incorporated in the Yukon Territories on April 15, 2010, and continued to British Columbia on October 17, 2011. The Company is engaged in copper-gold mining and related activities including exploration, development, extraction, and processing in Colombia and the acquisition, exploration and development of copper and gold projects in Latin America. The Company's common shares are listed on the TSX Venture Exchange ("TSX-V") under the symbol "ATY". The address of its head office is Suite 501 - 543 Granville Street, Vancouver, British Columbia, Canada.

On November 22, 2013, the Company acquired 90% of the issued and outstanding common shares of Minera El Roble S.A. ("MINER"), the owner of the El Roble mining property ("El Roble"), an operating copper-gold mine in Colombia. On September 11, 2019, the Company acquired 100% of the issued and outstanding common shares of Toachi Mining Inc. ("Toachi"), which owns the La Plata project in Ecuador.

On May 23, 2025, the Company and the National Mining Agency of Colombia ("NMA") executed a new 30-year mining agreement and related title for the El Roble mine.

As at September 30, 2025, the Company has a working capital deficiency of \$13,498,462 largely due to loans and borrowings and the portion of the Award payable to the National Mining Agency due within one year. The Company must continue to generate sufficient cash flow from operations, raise equity or extend its debt maturities to address its working capital deficiency, creating uncertainty about its ability to continue as a going concern.

2. SUMMARY OF MATERIAL ACCOUNTING POLICY INFORMATION**Basis of preparation and measurement**

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with Accounting Standards applicable to preparation of interim financial statements including International Accounting Standard 34 Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). These condensed interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments, which have been measured at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information. These condensed interim financial statements follow the same accounting policy information and methods of application as the Company's most recent annual consolidated financial statements and should be read in conjunction with the annual audited consolidated financial statements of the Company for the year ended December 31, 2024. There were no changes or additions to material accounting policies during the nine months ended September 30, 2025. Certain comparatives have been reclassified to the current period's presentation.

New and amended accounting standards

IFRS 18 Presentation and Disclosure in Financial Statements, which will replace IAS 1, Presentation of Financial Statements aims to improve how companies communicate in their financial statements, with a focus on information about financial performance in the statement of profit or loss, in particular additional defined subtotals, disclosures about management-defined performance measures and new principles for aggregation and disaggregation of information. IFRS 18 is accompanied by limited amendments to the requirements in IAS 7 Statement of Cash Flows. IFRS 18 is effective from January 1, 2027. Companies are permitted to apply IFRS 18 before that date. The Company is in the process of assessing if the new accounting standards will not have a significant effect on the Company's consolidated financial statements. The Company will defer implementation until the effective date.

3. RECEIVABLES

Other receivables	60,263	96,882
	\$ 8,349,569	\$ 8,562,296

As at September 30, 2025, the Company has a concentrate off-take agreement whereby the customer will purchase 100% of the metals- concentrate produced at the El Roble mining property. This current agreement has an expected settlement period ("quotational period") of one or four months following the month of shipment, and subject to certain limitations, the Company has the option of fixing the metal price for all or part of the shipment, which is adjusted to the average metal price of the quotational period month.

As at September 30, 2025, and December 31, 2024, the Company did not have any trade receivables that were past due. The Company's allowance for doubtful accounts on September 30, 2025, and December 31, 2024 was \$Nil.

Derivative instruments

The Company enters into derivative instruments from time to time in the normal course of business in order to manage its exposure to fluctuations in copper price, gold price, and the Colombian peso/US dollar exchange rate. The Company does not enter into or trade derivative instruments for speculative purposes. The Company has not applied hedge accounting to these derivative transactions and are measured at fair value at the end of each reporting period based on the terms of the arrangements and the expected settlement prices and/or rates. Any resulting mark-to-market adjustments have been recognized in derivative instruments on the consolidated statement of financial position. During the nine months ended September 30, 2025, the Company recognized a net fair value adjustment of \$Nil (2024 – \$119,732 gain) on its derivative instruments, and a net realized gain of \$279,400 (2024 – loss of \$1,324,786) on the settlement of its derivative instruments.

Currency forward arrangements

The Company has entered into zero-cost non-deliverable currency forward arrangements with local Colombian banks between the US dollar and Colombian peso. Each arrangement is net settled based on the difference between the market exchange rate and the contracted settlement rate, where the Company receives (or pays) proceeds if the contracted settlement rate is above (or below) the market exchange rate to purchase Colombian peso. As at September 30, 2025, the Company had no outstanding forward arrangements to convert United States dollars into Colombian pesos at a negotiated exchange rate (December 31, 2024 - \$5,835,000 resulting in a net liability of \$26,732). During the nine months ended September 30, 2025, the Company had a net realized gain of \$279,400 (2024 - \$7,252 loss) on the settlement of its currency forward arrangements.

Commodity derivative arrangements

The Company has entered into zero-cost commodity derivative arrangements with Auramet International LLC. These arrangements are net settled based on the difference between the market price and the contracted settlement price, where the Company receives (or pays) proceeds if the contracted settlement price is above (or below) the market price. As at September 30, 2025, the Company had no outstanding sale arrangements and a carrying amount of \$Nil (December 31, 2024 - \$Nil). During the nine months ended September 30, 2025, the Company had a net realized loss of \$Nil (2024 - \$1,317,534) on the settlement of its commodity derivative arrangements.

Credit facilities

The Company has arrangements with several Colombian banks to enter into unsecured credit facilities with terms up to one year from the date of drawn down (Note 21). The amounts drawn under the credit facility are subject to variable monthly interest rates at the applicable term rate based on the Secured Overnight Financing Rate ("SOFR") plus an applicable margin.

The Company carried forward loan agreements with Colombian banks from the year ended December 31, 2024, totaling \$8,450,000 which carried interest rates at SOFR plus a range from 0.87% to 1.70% per annum, which were fully repaid in nine months ended September 30, 2025.

In the nine months ended September 30, 2025, the Company entered into loan agreements with Colombian banks totaling \$9,509,000 which carried interest rates at SOFR plus a range from 1.00% to 1.60% per annum. \$3,539,000 was repaid in the nine months ended September 30, 2025.

Inventory facility

As part of the off-take agreement with the customer, the Company has been provided with an inventory facility. Amounts advanced by the customer bear annual interest at SOFR plus 4.5% from the date of advance and are secured by the related inventory until payment of the provisional invoice has been made (Note 14).

Loans payable

In February 2022, the Company entered into a secured definitive credit agreement with Trafigura PTE. Ltd. for a facility of \$10,000,000 and a term of 30 months (the "Credit Agreement").

In August 2024, the Company and Trafigura PTE. Ltd. amended the Credit Agreement, extending the maturity date of the credit facility from August 8, 2024, to July 31, 2026, with the following repayment schedule:

1. \$650,000 due on January 31, 2025, and April 30, 2025;
2. \$700,000 due on July 31, 2025;
3. \$950,000 due on October 31, 2025, January 31, 2026, and April 30, 2026; and
4. \$5,150,000 due on July 31, 2026.

9. LOANS AND BORROWINGS (cont'd...)

On April 8, 2025, the Company and Trafigura PTE. Ltd. further amended the Credit Agreement, revising the repayment schedule such that the maturity date for the remaining principal balance of \$8,700,000 was accelerated to June 30, 2025.

On June 27, 2025, the Credit Agreement was further amended, such that the outstanding principal balance of \$8,700,000 would be repaid in two instalments: \$2,700,000 on July 25, 2025 (PAID) and \$6,000,000 on December 30, 2026.

The principal bears interest at a rate of SOFR plus 7.5%.

Convertible debentures

In December 2020, the Company entered into an unsecured convertible debenture arrangement with Dundee Corporation for a principal balance of \$6,500,000, which carries an interest rate of 7.0% per annum payable quarterly for five years, and the principal is due in December 2025. The principal balance is convertible into 11,627,907 common shares of the Company at \$0.559 per share. On the closing date, the Company paid \$357,500 as a finder's fee. The Company may, at its option, redeem the debenture, in whole or in part, at par plus accrued and unpaid interest.

On initial recognition, the Company determined the fair value of the liability component to be \$5,393,572, which was determined by calculating the fair value of the future cash flows of the loan assuming a discount rate of 10%. The equity component was determined to be \$689,517, which comprised the proceeds received less the liability component. A deferred tax liability of \$176,829 related to the taxable temporary difference arising from the equity portion of the convertible loan was recognized as an offset in equity reserves. The debt component of the convertible note is being accreted over the term to maturity, with accretion charge included in interest expense.

A decommissioning and restoration provision has been recognized in respect of the mining operations at the El Roble mining property, including associated infrastructure and buildings. The estimated undiscounted cash flows required to satisfy the decommissioning and restoration provision as at September 30, 2025, was \$3,724,370 (December 31, 2024 - \$3,829,885), which were adjusted for inflation and uncertainty of the cash flows of 2.0% and then discounted using a risk adjusted pre-tax discount rate of 9.75% (December 31, 2024 - 2.0% inflation and 9.75% discount rate). In view of the uncertainties concerning environmental reclamation, the ultimate cost of reclamation activities could differ materially from the estimated amount recorded. The estimate of the Company's decommissioning and restoration liability relating to the El Roble mining property is subject to change based on amendments to laws and regulations and as new information regarding the Company's operations becomes available. Future changes, if any, to the estimated liability as a result of amended requirements, laws, regulations, operating assumptions, estimated timing and amount of obligations may be significant and would be recognized prospectively as a change in accounting estimate. Any such change would result in an increase or decrease to the liability and a corresponding increase or decrease to the mineral property, plant and equipment balance.

13. SHARE CAPITAL

Authorized share capital consists of an unlimited number of common shares without par value.

Issued share capital

On July 22, 2025, the Company announced the closing of a rights offering (the "Rights Offering"). Pursuant to the Rights Offering, 11,219,319 Rights Units were issued pursuant to the basic subscription privilege and 18,667,703 Rights Units were issued pursuant to the additional subscription privilege, totaling 29,887,022 units of the Company, at the subscription price of C\$0.11 per unit for gross proceeds of C\$3,287,572. Each Rights Unit consisted of one common share of the Company (a "Common Share") and one transferable Common Share purchase warrant (a "Rights Warrant"), with each Rights Warrant exercisable into one Common Share (a "Rights Warrant Share") at a price of C\$0.18 per Rights Warrant Share for a period of two years from the issue date.

On July 28, 2025, the Company announced the closing of a fully subscribed offering under the listed issuer financing exemption (the "LIFE offering"). Under the LIFE Offering, the Company sold 29,090,910 units of the Company, at a subscription price of CAD\$0.11 per unit for gross proceeds of CAD\$3,200,000. Each LIFE Unit consisted of one common share of the Company and one transferable Common Share purchase warrant (a "LIFE Warrant"), with each LIFE Warrant exercisable into one Common Share (a "LIFE Warrant Share") at a price of CAD\$0.18 per LIFE Warrant Share for a period of two years from the issue date.

During the nine months ended September 30, 2025 and 2024, the Company issued 200,000 common shares pursuant to the exercise of Warrant Shares for proceeds of \$25,817 (C\$36,000).

Revenue recognition

For the three months ended September 30, 2025, the Company did not complete its third-quarter shipment due to a logistical disruption that delayed the arrival of the shipping vessel at the port of departure. As a result, the concentrate produced during the period remained in inventory as at September 30, 2025, since the conditions for revenue recognition were not met prior to the reporting date.

Additionally, during the same period, the Company recorded a \$1,274,044 negative adjustment to provisional pricing, reflecting updated assay results related to a prior period shipment that had not yet been finalized.

Deferred revenue

Deferred revenue relates to advance payments received from the customer under the off-take agreement. As at September 30, 2025, the Company had advances of \$10,500,000 on inventory (December 31, 2024 - \$Nil) plus interest of \$45,680. These amounts advanced were fully settled subsequent to September 30, 2025, following the sale of the inventory to the customer.

During the nine months ended September 30, 2025, the Company:

- reallocated mineral property depletion of \$2,194,224 to the carrying amount of ore stockpile and metals concentrate inventories produced but not yet sold at the reporting date;
- reallocated mineral property depletion of \$1,765,492 previously recognized in carrying amounts of metals concentrate inventories sold to cost of sales; and
- recorded \$481,577 of right-of-use assets and lease liabilities.

During the nine months ended September 30, 2024, the Company:

- reallocated mineral property depletion of \$1,734,297 to the carrying amount of ore stockpile and metals concentrate inventories produced but not yet sold at the reporting date;
- reallocated mineral property depletion of \$2,858,264 previously recognized in carrying amounts of metals concentrate inventories sold to cost of sales;
- recorded \$65,835 of increases in decommissioning and restoration provision; and
- recorded \$1,544,781 of right-of-use assets and lease liabilities.

21. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to provide shareholder returns through maximization of the profitable growth of the business and to maintain a degree of financial flexibility relevant to the underlying operating and metal price risks while safeguarding the Company's ability to continue as a going concern.

As at September 30, 2025, the Company has arrangements for unsecured credit facilities with a number of Colombian banks, including Banco Davivienda S.A, Banco de Occidente, Bancolombia and Banco Popular. As at September 30, 2025, approximately \$4,000,000 remained available to be drawn under these facilities.

As part of the off-take agreement with the customer, the Company has been provided with an inventory facility. Amounts advanced by the customer bear annual interest at SOFR plus 4.5% from the date of advance and are secured by the related inventory until payment of the provisional invoice has been made. As at September 30, 2025, the Company had advances of \$10,500,000 on inventory (December 31, 2024 - \$Nil). These amounts advanced were fully repaid subsequent to September 30, 2025, following the sale of the inventory to the customer.

21. CAPITAL MANAGEMENT (cont'd...)

Furthermore, the Company considers components of equity and debt as part of its capital. The Board of Directors does not establish a quantitative return on capital criteria for management. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. The cash flow generated from mining operations will be insufficient to repay the Company's existing loans and borrowings entirely at maturity. Consequently, the Company must secure additional funds through debt or equity financing, or otherwise, to meet these obligations, or negotiate to amend or extend their terms. The Company is not subject to externally imposed capital requirements other than those disclosed in notes 9 and 23. There has been no change in the Company's approach to capital management for the years presented.

22. FINANCIAL INSTRUMENTS

The Company classified its financial instruments as follows:

	Fair value hierarchy	September 30, 2025	December 31, 2024
Financial assets - amortized cost:			
Cash		\$ 4,884,229	\$ 3,055,305
Other receivables		60,263	96,882
Financial assets - fair value through profit or loss:			
Trade receivables	Level 2	986,491	5,183,614
Derivative assets	Level 2	-	27,832
Financial liabilities - amortized cost:			
Accounts payable and accrued liabilities		12,942,749	9,390,052
Loans payable		18,782,272	24,884,674
Lease liabilities		1,443,708	1,507,621
Financial liabilities - fair value through profit or loss:			
Derivative liabilities	Level 2	-	54,564
Provision for restricted share units	Level 2	359,924	153,444

Financial instruments recorded at fair value on the consolidated statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels: (a) Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities; (b) Level 2 - Inputs other than quoted prices that are observable for assets or liabilities, either directly or indirectly; and (c) Level 3 - Inputs for assets and liabilities that are not based on observable market data. The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value.

The carrying value of cash, other receivables (excluding trade receivables from provisional sales of metals concentrate), and accounts payable and accrued liabilities, approximated their fair value because of the short-term nature of these instruments. The fair values of the Company's loans payable are approximated by their carrying values as their interest rates are comparable to current interest rates.

Trade receivables from provisional sales of metals concentrate includes provisional pricing, and final price and assay adjustments. Derivative instruments are forward arrangements that were valued using pricing models, which require a variety of inputs, such as expected copper prices, gold prices, and foreign exchange rates. The Company's exercise price of its RSUs and conversion price on the convertible debentures are denominated in Canadian dollars or at a set exchange rate. The trade receivables from sales of metals concentrate and derivative instruments are valued using observable market commodity prices and thereby classified within Level 2 of the fair value hierarchy.

The Company's activities expose it to financial risks of varying degrees of significance, which could affect its ability to achieve its strategic objectives for growth and shareholder returns. The principal financial risks to which the Company is exposed are metal price risk, credit risk, liquidity risk, currency risk, and interest rate risk. The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework and reviews the Company's policies on an ongoing basis.

Metal price risk

The Company is exposed to metals price risk given that its revenues are derived from the sale of metals through its metals concentrate products, the prices for which have been historically volatile. Consequently, the economic viability of the Company's mineral property may be adversely affected by fluctuations in metals prices. For concentrate sold during the nine months ended September 30, 2025, a 10% change in copper and gold prices would result in an increase/decrease of approximately \$2,402,000 and \$1,852,000, respectively in the Company's pre-tax income or loss on an annualized basis, respectively.

22. FINANCIAL INSTRUMENTS (cont'd...)**Credit risk**

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's cash is held through large Canadian, international and foreign national financial institutions. All of the Company's trade receivables from concentrate sales are held with a large international metals trading company. The Company mitigates this risk by transacting only with reputable financial institutions and requiring provisional payments of 90% of the value of the concentrate shipped to a single well-known buyer. The carrying amount of financial assets recorded in the financial statements represents the Company's maximum exposure to credit risk. The Company believes it is not exposed to significant credit risk and overall, the Company's credit risk has not declined significantly from the prior year.

Interest rate risk

The Company is exposed to interest rate risk on its variable rate debt facilities. Variable interest rates are based on the SOFR plus a fixed margin. The Company does not enter into derivative contracts to manage this risk. As at September 30, 2025, a 10% change in SOFR and/or LIBOR would result in an increase/decrease of approximately \$304,000 in the Company's pre-tax income or loss on an annualized basis based on the loan and credit facilities used.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk by continuing to monitor forecasts and actual cash flows. The Company has in place a planning and budgeting process to help determine the funds required to support the Company's normal operating requirements on an ongoing basis and its development plans. The Company strives to maintain sufficient liquidity to meet its short-term business requirements, considering its anticipated cash flows from operations, its holdings of cash, and its committed liabilities. The maturities of the Company's non-current liabilities are disclosed in Notes 9, 10, 11 and 12. All current liabilities are settled within one year.

As at September 30, 2025, the Company expects the following maturities of its financial liabilities, lease obligations, and other contractual commitments, excluding payments relating to interest:

	Note	Less than 1 year	1 - 2 years	More than 2 years	Total
Accounts payable and accrued liabilities		\$ 12,942,749	\$ -	\$ -	\$ 12,942,749
Loans and borrowings		12,782,272	6,000,000	-	18,782,272
Deferred revenue		10,545,680	-	-	10,545,680
Provision for restricted share units		274,268	85,656	-	359,924
Lease liabilities		588,819	854,889	-	1,443,708
Decommissioning and restoration provision		1,112,538	799,083	1,467,392	3,379,013
Arbitration award payable	23	7,110,667	4,736,302	-	11,846,969
		\$ 45,356,993	\$ 12,475,930	\$ 1,467,392	\$ 59,300,315

Foreign currency risk

The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. The Company primarily operates in Canada and Colombia and incurs expenditures in currencies other than the US dollars. Thereby, the Company is exposed to foreign exchange risk arising from currency exposure. Based on the Company's net exposure, as at September 30, 2025, and assuming that all other variables remain constant, a 10% depreciation or appreciation of the US dollar against the Canadian dollar, Peruvian nuevo sol, and Colombian peso would result in an increase/decrease of approximately \$1,502,000 in the Company's pre-tax income or loss.

23. CONTINGENCY AND COMMITMENT**Royalty Payment Plan with the National Mining Agency**

On December 29, 2021, the Company's operating subsidiary, Minera El Roble S.A., entered into an agreement (the "Agreement") with the NMA to resolve a royalty dispute. Under the terms of the Agreement, both parties committed to settling the matter through binding arbitration in Colombia. Additionally, as part of the Agreement, the Company entered a five-year payment plan (the "Payment Plan") with the NMA, which was amended in June 2022, to pay for the disputed royalties in biannual instalments over five years including interest at a 6% annual rate.

On March 7, 2025, the arbitration tribunal at the Center for Arbitration and Conciliation of the Bogota Chamber of Commerce ruled in favor of the NMA, requiring the Company to back pay copper royalties since 1994 (the "Award"). On April 9, 2025, the tribunal clarified that the payment of the Award be made within the timeframe outlined in the Payment Plan, and as a result, on May 12, 2025, the Company and the NMA adjusted the Payment Plan accordingly to account for the Award and for previous payments made by the Company under the Payment Plan, indexed for inflation and interest. As at September 30, 2025, the outstanding balance owed by the Company to the NMA pursuant to the Payment Plan is \$11,569,562 plus interest accrued of \$277,407 (COP\$46 billion), payable in 3 biannual installments (Note 10). During the nine months ended September 30, 2025, the Company paid \$3,029,479 plus interest of \$132,833 (COP\$13 billion) pursuant to the Payment plan.

On May 23, 2025, the Company and the NMA executed a new 30-year mining agreement and related title for the El Roble mine. Additionally, the metal concentrate inventory previously pledged as security in favor of the NMA was released from the pledge and sold by the Company in June 2025.

Other Claims

In the ordinary course of business, the Company may be threatened with, named as defendants in, or made parties to pending and potential legal actions. The Company does not believe that the ultimate outcome of these and any outstanding matters will have a material effect on our financial position, results of operations or cash flows.

24. SEGMENTED INFORMATION

The Company is engaged in mining, exploration, and development of mineral properties. Results of operating segments are regularly reviewed by the Company's chief operating decision maker to make decisions about resources to be allocated to the segment. The Company's reportable segments for 2025 include its mining operations at El Roble ("El Roble mine"), E&E activities at El Roble ("El Roble E&E") and E&E activities at CMLP ("La Plata E&E"). Corporate and other includes activities which provide administrative, technical, financial, and other support to the Company's business units. Total assets and liabilities do not reflect intercompany balances, which have been eliminated on consolidation. During the nine months ended September 30, 2025, and in 2024, the Company had one external customer comprising of a single off-take agreement for metals concentrate produced at the El Roble mining property.

The Company's segments are summarized in the following tables:
